WHAT YOU NEED:

- * Green, brown, red & gray colored felt squares
- * Pillow stuffing
- * Brown & green colored thread
- * Sewing needle
- * Straight pins
- * Chopsticks
- * Pipe cleaner/chenille stem
- * Googly eyes
- * Yoda Body Pattern (below)
- * Yoda Rob Front (below)
- * Yoda Robe Back (below)

STEP 1

Print and cut out the Yoda body and robe patterns. Secure the Yoda body pattern to two pieces of green felt, and the front and back robe patterns to the brown felt with straight pins. Then cut the felt.

STEP 2

Hand sew the two pieces of green felt together but don't sew the bottom of the robe, that's where your finger will go for the puppeting action. Use a chopstick to push the pillow stuffing into the head and top half of the body. Cut two small pieces of pipe cleaner and stick each piece into the arms to make them bendy.

STEP 3

Next, sew the robe onto Yoda's body. Don't forget to put the small grey felt square inside the robe.

STEP 4

Lastly, glue on a small green square for the nose, a small red triangle for the mouth and googly eyes!
